

**The International Institute for Research in Paraplegia (IFP) Zurich
and
the Geneva International Institute for Research in Paraplegia (IRP)**

invite applications for

RESEARCH GRANTS

in the field of

**Basic and Clinical Research on
CNS Regeneration and Functional Restoration**

with special emphasis on the spinal cord. Up to two years' funds of **max. SFr. 75'000.- or Euro 50'000.- p.a.** will be allocated on the basis of scientific quality and relevance to paraplegia and to mechanisms of compensation and long term recovery.
Applications by start up groups are welcome

Applications will be reviewed by an international panel of basic and clinical neuroscientists.

Deadline for applications: **October 20, 2005.**
